

World-class weatherproof stereo speaker systems for boats, RV's, ATV's, motorcycles & outdoor hi-fi applications.

"After going through three pairs of parts store speakers in our combine, we're glad to have these tough speakers, which don't seem to be bothered by the dust, rain or vibration of the machinery" — P. Hale, Omaha

"Your newspaper ad didn't do these speakers justice. They sound better than the more expensive set that came with the boat, look better, and have lasted two seasons despite my teenagers' best efforts to both blow them up and drown them!" — B. Ammundsen, Tulsa

"Your speaker solved the problem of needing both misters and a great sound system on our back deck. We'll be ordering another set of four for the patio boat soon." — A. Crenshaw, Houston

"We no longer have to replace speakers every year on our rental houseboats. The Mariners sound great, look great, and take a licking!" — J. Orr, Havasu

"We love the Mariner I's we bought for our pool deck! The sound is tops and now we don't have to worry about splash fights and hoses." — S. Neirlansen, LA

"Now our restored CJ-7 sounds better than the expensive system in our new luxury car, but we have no worries about dirt and weather. We get envious comments all the time!" — D. Kennedy, Spokane

"My husband LOVES his new MMA speakers. Now he's always in his fishing boat!" - R. Lee, Stuart, FL

MARINER I (photo left)

MMA's award-winning (top-of-the-line & state-of-the-art) 6.5" (7.0" total grill width), round, flush-mount coaxial weatherproof speaker system features a 6" heat, moisture and percussion resistant primary driver, separate (tripod mounted) 1" FerroFluid damped hi-output tweeter, white marine & UV resistant ABS armored encasement & grill. * Requires only 2.5" mounting depth; 100 watt system capacity. **(\$299/pr+\$22 S/H)**

MARINER II

(middle pair in photo) Same size & similar to MARINER I but utilizes a dual cone design (whizzer cone technology) to reproduce high frequencies (vs. separate tweeter in MARINER I). 50 watt system **(\$249/pr+\$21 S/H)**

MARINER III

(photo right) Similar to MARINER II but in 5.25" (6.0" total grill width) configuration. *1 5/8" mounting depth; 50 watt system **(\$199/pr+\$18 S/H)**

* all models are 4ohm impedance
